

48th EPS Conference on Plasma Physics

Thursday, June 30, 2022

Thu - MCF (Improved Performance) (5:00 PM - 7:00 PM)

time	[id] title	presenter
5:00 PM	[M03] The increase in L-H power threshold due to externally applied non-axisymmetric magnetic perturbations in ASDEX Upgrade	WILLENSDORFER, Matthias
5:30 PM	[M20] High performance Ne-seeded baseline scenario in JET-ILW in support of ITER	GIROUD, Carine
6:00 PM	[M2] Core radiative collapse in WEST LHCD plasmas: characterisation and integrated modelling	OSTUNI, Valeria
6:15 PM	[M29] Understanding tungsten accumulation during ICRH operation on WEST	MAGET, Patrick
6:30 PM	[M3] Real time monitoring of pellet delivery to facilitate burn control in EU-DEMO	LANG, Peter
6:45 PM	[M20] Isotope Effects on Intrinsic Toroidal Rotation and Rotation Reversals	NAVE, Maria Filomena
