

# 48th EPS Conference on Plasma Physics

## Thursday, 30 June 2022

### Thu - JS 3 - BSAP/ESPD (Solar) (10:40 - 12:40)

time	[id] title	presenter
10:40	[206] Solar and stellar flares - recent advances and open questions	KLEINT, Lucia
11:10	[201] Revealing the Lagrangian Skeleton of Solar Atmospheric Dynamics	DE SOUZA E ALMEIDA SILVA, Suzana
11:40	[227] Turbulence induced by magnetic reconnection in the Earth's magnetosphere: numerical simulations and comparison with observations	PUCCI, Francesco
12:10	[44] MHD avalanches in magnetized solar plasma: proliferation and heating in coronal arcades	Dr REID, Jack
12:25	[272] On the formation of multi-threaded prominences	JERČIĆ, Veronika
