

48th EPS Conference on Plasma Physics

Friday, July 1, 2022

Fri - Plenary Session (9:00 AM - 10:10 AM)

-Conveners: livia lancia

time	[id] title	presenter
9:00 AM	[242] Measuring the H-He properties under Jupiter interior conditions: challenge, approach, data and implications	Dr BRYGOO, Stephanie
9:35 AM	[21] Learning Exchange-Correlation Functionals from Nature	VINKO, Sam

Fri - Plenary Session (5:00 PM - 6:10 PM)

-Conveners: Egbert Westerhof

time	[id] title	presenter
5:00 PM	[14] Linear plasma devices as tools to study plasma surface interactions and divertor physics	MORGAN, Thomas
5:35 PM	[588] Progress in Direct Drive Inertial Confinement Fusion: Conventional and Shock Ignition	BETTI, R.
