

Dear participant,

On behalf of Consorzio RFX, University of Padova and FuseNet Association we welcome you to the FuseNet Phd Event 2022.

In this email some practical information.

What is covered financially and what are extra hotel possibilities.

The following items are covered by FuseNet:

- Welcome Reception
- Coffee breaks and lunches during the conference
- Social Dinner
- Guided tours of Palazzo Bo, Botanical Garden, Consorzio RFX
- Hotel accommodation at Hotel "Casa del Pellegrino" for the nights of **3rd-4th-5th July**.

Should you wish to stay **more nights**, that is possible and will require **payment by the participant to the hotel**. The way to proceed is to contact the hotel directly, they should know about your presence and can check and book extra nights for you.

The LOC has already given the hotel the rooming sheet according to the departure and arrival indications that you provided in the application form.

In this regard, we ask those who have set July 5th as the departure date (missing the last day of the conference) to confirm their choice because by leaving on July 5th you will not be able to participate in the conference dinner and perhaps neither to the visit to RFX. Additionally, your PK/poster contribution can't be scheduled in the program of July 6th.

On a similar note, we remind those who have set an arrival and departure date beyond the days of the conference, that the costs of room and board for the additional days will be on their expense.

Pecha Kucha's at the FuseNet PhD Event

After the success at the previous event, students requested to give more time for **oral** presentations. We are glad to announce that the program has been adapted for 50 [Pecha Kucha](#)'s presented by peers.

You can upload the file (ppt or pdf) of your presentation [through the website from the Abstract submission page](#) until **June 26th**.

Poster presentations at the FuseNet PhD Event

The PhD students who will present their work with a **poster** are expected to bring their printed poster to the event. **(A0 size, Portrait Orientation)**

Stay informed through the conference website for any information. News and materials will be constantly updated. Follow the instructions for preparing the posters and the presentations at the link: [FuseNet PhD Event 2022 \(4-6 July 2022\): Posters and PechaKucha · Fusenet - Indico \(Indico\)](#)

A provisional program is available at the link: [FuseNet PhD Event 2022 \(4-6 July 2022\): Provisional Program · Fusenet - Indico \(Indico\)](#) and is being updated.

We look forward to seeing you in Padova.
